21 Cornhill, Boston, Apl. 19/59.

Dear friend Webb,

I wrote to you by last week's steamship. Two days after the letter had gone, I rec'd. yours informing me that Mr. San R.W.W. had determined to leave Australia, & go to California, & asking for letter to meet him at San Francisco. - I am very glad to hear he is coming this way, and hope he will come to Boston, and that I shall the have pleasure to see him - I have obtained for him two letters of introduction to persons in S.F., both of which will, I think, prove serviceable to him. One is to Mrs. Robert Sherwood; she is your fellow-Country woman, - was Miss Eliz. (or Lizzie) Neill, of Belfast - Mr. Garrison wrote the letter to her. The other was from Mr. Emery B. Fay, a merchant of high character & business talent in this city, to his brother Mr. Caleb T. Fay, a merch't. in San Francisco. - These two I despatched by mail to-day, to your son's address at S.F., in season to go by the Steam mail Packet, which leaves N.York tomorrow, 20th. No time has been lost since receiving yours, and I trust the letters will be in season for your boy. - I have no word yet from my boy's Ship, and cannot expect a letter before the midole of July.

Another letter from C.K.W., for the Advocate, I am to have tomorrow morning, in season to be mailed herewith; - indeed, but for that, I sh'd. not be writing to you this week, & shall not much enlarge, in order to allow Whipple ~~all the~~ as much of the envelope as possible. - I intend soon to send you, by one of Thayer & Warren's Ships, a small parcel of Tracts

which cannot, me think, fail to help our cause, wherever they are read, in G. Britain. — I would like to send a parcel direct to Leeds, & so save something, in time, & cost of transportation. To whom, think you, had I better send them? To Armistead, or Horner, or to some of the Young Men's Society? — Our New York Annual Meeting is but 3 weeks off, and we are preparing for it. — It is not possible, I suppose, for this to reach you in season to have Whipple's letter of any use for the May Advocate. It occurs to me, however, that you could put it in type, & have slips struck off, and circulated in advance. All this, with the distribution by mail, might be of over expense. I would rather advise this course, as A. L. Stone is a "very popular" Minister here, & can make out for himself a quasi Antislavery reputation, while the facts which Whipple states, ought to be spread at once everywhere. — Will not E. Matthews undertake

to 'post up' the Baptists with regard to Baron Stow's position? - I think it would be an excellent move to circulate pretty extensively C. K. H.'s Letter, in slips. It could be headed "Anti-Slavery Advocate - Extra."

With sincere regards to Mrs. Neele & yourself —

S. M. J.

Excuse this pencilling, written just before meeting - closing, & standing.
